

# Keep an eye on your home, family or pets, all from any internet PC or video cell phone

There are so many good reasons to have a Gemini Security System in your home.

Ask how you can automatically be kept in touch with home via video phone, PC or email, and anytime there's an alarm reported by your Gemini Security System. Simply look in to view live video yourself, anytime, anywhere right over the internet. System reported events are emailed to your PC or phone and stored for later review – all on the password protected, secure website we provide.

**Know when ...**

- Kids get home? Or are they home alone?
- Nanny or babysitter in charge?
- Baby is in crib, safe and sound?
- Pets: Naughty or nice?
- Safe, gun or liquor cabinet accessed?
- Cleaning/pool service comings & goings.
- 2nd home/vacation house remote monitoring, too.

No special software required on your PC to view fast, broadband internet video. Your Gemini Security System can automatically send you video during an alarm by emailing your PC or your video cell phone.

Tiny 4" professional quality NAPCO color cameras fit discreetly anywhere (at left). Supports existing cameras and wireless wi-fi networks, 802.11B and up too.

A383C \*Supports mobile devices running PocketPC and WindowsMobile. PocketPC and WindowsMobile are trademarks of Microsoft Corp

Then again, do you really need more than one?

# Enjoy peace of mind knowing that you are protected by the most reliable, family-friendly security system available.

In the past, home security systems were regarded as luxuries only the rich would need or could afford. But today, there is a home security system for any household, lifestyle and budget.

Home security systems are as much of a necessity of modern life as computers, dishwashers and microwaves. With everyone's busy lifestyles, there is often just no one to keep a watchful eye out and local police just can't be everywhere all at once.

The good news is today's Gemini Home Security Systems are simply smarter, more family-friendly and more affordable than ever before. Gemini offers a hybrid of hardwired and wireless system components to suit your household today and tomorrow. In fact, Gemini wireless sensors were proven in independent tests to outperform competitive products – but what that means to you is simply greater reassurance of dependable peace of mind.

Easy pet- and family-friendly systems for the 2 and 4 legged members of your family.

Gemini's many keypad models marry style and simplicity for users of all ages.

Peace of mind to relax, out for the day or while away on vacation.

Whether it's protecting your family from burglary or fire, Gemini systems can do it all with ease 24 hours a day, 7 days a week. And our advanced security systems are engineered to be so smart they're actually easier to use – from your choice of keypads, a remote keychain or even from any touchtone or cell phone anywhere in the world! Wherever you go, ours is

A keypad in your pocket – Turn your system on or off and get instant confirmation with a lock or unlock icon and more. Plus, out-and-about your home, you've got a personal panic to get you help in case of duress or medical emergency.

Award-winning Gemini Designer Keypads are as stylish as they're easy to use. Deluxe Custom English Display models feature messages and descriptions tailored to reflect your home's personality, too. (Shown actual size.)

a second pair of eyes focused on your home, looking out for you and yours.
